

Soliloquy of the President [housing] vol.166

About “The house is the treasure of the family”...

I can't forget the words of a customer's wife. The expectation of a house is different for a woman and for a man. For me a house should be “durable and safe”, for the wives “easy to use kitchen”, “can see the children while doing the housework” or “nice interior” are important.

I do housing over 40 years now. Although I lose interest in almost everything but, when it comes to “*housing*” and “*residence*” then I am still *motivated and passionate*. Once in a while I stay in Hawaii, Australia (Well several days in a year) and finally my house both in Malaysia and the Philippines was finished in December. My house in Bangkok, Thailand is under construction and will be finished next year in August.

Yes, as I planned for my old age, finally is realized, to live in the above countries 2 month each year, *that was my goal*. People who saw my passion in “housing” and “residence” said that I am *abnormal* to pour money into this... (my older and younger daughters say that father is strange).

The reason is *the house where I was born*. I lived with my parents, grandmother, and my father's 2 younger sisters, a total of 6 persons in a poor house after war.

Well, there were a lot of trouble, bad and painful things. I blamed “*this house*” and not my father, mother or grandmother. My mother left us because she feud with my grandmother, I blamed “*the improper house*” that's why my mother was gone. (Well, about 3 years after my mother returned home.)

That was my primary experience, I think that is the reason of the current work. That inspires me to build “*good houses*”, because I really believe that I can make your family happy, I don't lose the passion after 40 year, I built 8,000 houses really not running for money. Everybody is filled with feelings about a “house”. Finally, please read Asahi Gloval's “*philosophy of a house*” statement. We would be happy if you understand the serious effort in our unusual enthusiasm.

Philosophy of a house

The “house” is the most important thing in the world.

The “house” is the most precious thing in the life.

The “house” that fosters the family, which raises the family ties.

The “house” that gives a happy family life and joy to live.

Our “house building”, is to build the most important thing in the world for human life, it is a “sacred work”.

We achieve this "philosophy of the house."
